**Linda, Michelle, or whatever you call yourself these days....**

**How dare you attempt to dangle the kids pictures or try to soft sell us with your so called "love" and "family" crap! We have no use for you at all Linda because clearly you are the evil mastermind of all this trouble. You have no regard for anything or anyone unless you benefit from it. We will always love Star and certainly his children, but there are absolutely no feelings for you except pitty for what you've become and sadness for what you managed to do to our nephew. We know what God's love is and you certainly don't represent it in any way. Please refrain from contacting us in the future.**
