Star and Linda:

Since I decided to write this letter, I am feeling better and had no trouble sleeping last night. My problem was not about your dad - it was over this whole MESS you started. I simply could not believe you could do such an ugly thing.

Your dad repented many long years ago and was forgiven by GOD and everyone else connected with his sin, now let's talk about your sin. First for lying about doing all you've done "out of love".

I'm sure that no one you sent those letters to believe you did that VILE thing out of love. VILE per the dictionary means miserable, mean, wretched, contemptible, unworthy, filthy, foul, nasty, EVIL, immoral and wicked - yet it was the only word I could think of when I learned how many people you had hurt. Perhaps me more than anyone else, because I could never believe you would do such a thing.

How could you dare to hurt poor Lori and put her through all that misery when she has always been so pro-Star? What possible reason did you have for sending one to my brother Tommy? Does the word VILE fit?

I feel better now after hearing from Tommy, Dave, Steve, Jeff, Timmie and people from the church saying how ridiculous of you to claim you did this out of love. None of them want anything to do with you, ever, until you are the one to repent.

You wanted to ruin your dad's reputation and make the church crumble around him, but Starbaby, your sinful plot backfired on you - - you are the one that nobody wants to associate with until you wake up, pray for God's forgiveness and become once again the kid we all loved so dearly

I do not want nor need any more grief; so won't be staying in touch while things remain as they are.

Grandma
